# Mortimer Spinks Contractor Management Services

Using flexible staff has proved to be a tremendously successful way to satisfy spikes in demand or to provide specific skills. However, in today's environment the need to make efficiencies and to cater for ever changing and increasingly complex tax and employment legislations present a whole range of challenges to organisations utilising contractors either directly or through multiple channels. Mortimer Spinks Contractor Services model addresses these issues (and more) through the provision of 3 key services;

## Clients

Today Mortimer Spinks and Harvey Nash provide these services to many of the world's largest organisations and has transitioned many thousands of direct and third party contract staff into the Mortimer Spinks Contractor Services model.

## Services

### Administration of Contract

- Manage third party contracts
- Provide fully compliant contracts to minimise risk of tax liability, employee rights or dept transfer
- Access existing contracts and advise on compliance aspects.

### Administration of Payroll

- Standardise administration or multiple payment arrangements
- Provide electronic tools for timesheet & invoice management
- Batch invoicing brings multiple invoices into single monthly invoice.

### Supplier Management

- Manage non-preferred suppliers – maintain access to niche suppliers
- Provide consultation & advice on preferred supplier utilisation.

Over the last decade many clients and thousands of contractors have benefited from the Mortimer Spinks Contractor Services Model.
